

PRODUCT DATA SHEET

Gyprock Supaceil was the first product in Australia manufactured with Optimised Core technology which provides an advanced performance-to-weight ratio, meaning greater breaking strength in a substantially lighter board that continues to exceed the performance requirements of Australian Standard AS/NZS 2588. This improved strength ensures it will stay flatter, even when installed on ceiling joists with 600mm centres. There is also less chance of fixings pulling through the board when extra pressure from above is applied such as heavy ceiling insulation.

- Non-fire rated ceiling applications
- New residential construction
- Repair and alterations of existing buildings

Gyprock Supaceil Specifications			
Feature	Description		
Thickness	10mm		
Widths ⁻	0900mm/1200mm/1350mm		
Lengths ⁻	2400mm/2700mm/3000mm/3600mm 4200mm/4800mm/5400mm/6000mm		
Edge Duefiles			
Edge Profiles	Recessed Edge		
Paper Colour	lvory		
Mass	6.1kg/m ² , 6.2kg/m ² (WA)		
Thermal	0.04-0.05 m ² K/W		
Resistance			
Fire Hazard	Group No = 1		
Properties ^Δ	SMOGRARC <100 m ² /s ²		
Combustibility [♦]	Plasterboard may be used wherever a non-		
	combustible material is required.		
Total Recycled Content	6.2%		

[□]Stocked sizes and widths may vary by region, please refer to the relevant product page on gyprock.com.au for details.

Product Features

Strong

Robust with high breaking strength for improved handling and performance

Light

Easy to lift for better sheet manoeuvrability and improved flex

Easy Score and Snap

For crisp edges and cleaner cuts

Australian Made and Owned

Licensed by Australian Made Campaign Ltd

 $^{^{\}Delta}$ In accordance with AS ISO 9705 and AS 5637.1

 $^{^{\}Diamond}$ In accordance with NCC2022 Vol 1 Clause C2D10(6)(a) and NCC2019 Amdt1 Vol Clause C1.9(e)(i).

PRODUCT DATA SHEET

Plasterboard Finishing

Jointing and finishing of Gyprock plasterboard interior installations is to be carried out in accordance with **FIGURE 1** and **TABLE 1** in this document, and the following details, so as to provide a smooth surface for decorating. Stopping and external corner beads are to be applied to all edges subject to damage. A Level 4 Finish is generally the accepted level of finish for residential construction as detailed in AS/NZS2589.1 and is also recommended for commercial construction. This requires a three-coat system, consisting of:

- Tape and tape coat
- Second coat and
- Finish (or topping) coat.

-	*Setting type co	ompound. Do not use a setting co	ompound over a drying ty	pe compound.	•
For protected exter	rior applications, use We	t Area Base Coat or Ultra-Base N	MR 60 for tape and secon	d coat, followed by a Gyprock	Finish Coat.

PRODUCT DATA SHEET

Manufacturing Tolerances

Nominal	10mm +/- 0.4mm
Thickness	
Nominal Widths	0900mm, 1200mm and 1350mm +/- 3mm
Nominal Lengths	From 2400mm to 6000mm +/- 5mm, typically in 300mm increments
Squareness	Cut ends +/- 3mm in the width of the board

^{**}Subject to reasonable manufacturing tolerance

Storage

Protect plasterboard from weather and moisture. Avoid products sagging by storing horizontally, supported on a level platform or full-width support members spaced at max. 600mm centres.

Health and Safety

Manufactured For Life Warranty

Gyprock products are manufactured for life with all CSR products designed to achieve optimal performance when part of a CSR integrated system. Gyprock continues to lead the market with premium quality products which are the preferred choice of plastering professionals. Gyprock plasterboard products are manufactured to the Australian Standards AS2588 providing confidence in quality of product and support. For details on our product warranty, please log onto www.gyprock.com.au/warranty, or contact us on 1300 306 556.

Licensed by Australian Made Campaign Limited to use the Australian Made Logo.

Exceeds the GBCA specification for Volatile Organic Compound content according to independent testing.

Gyprock plasterboard is manufactured to meet and exceed the requirements of AS/NZS 2588.

Verified by an independent conformity assessment body to meet the environmental, health and social/ethical criteria of the GECA Panel Boards standard.

Gyprock plasterboard products are manufactured for life with all CSR products designed to achieve optimal performance when part of a CSR integrated system.
